Special Design for Model Railroading Collectors

All Aboard

DATA EXPRESS™

All Aboard Data Express™: New, innovative database software that was specially designed for Model Railroaders! This new inventory software is based on recent database technology, especially for model railroad equipment!

All Aboard Data Express™: An entire new concept in inventory control. Simple for use, yet smart behind the scene. User friendly, and mainly intuitive. The software provides an advanced approach in order to easily access each category and its items.

All Aboard Data Express™: Universal & Fully Customizable. Now you can customize and personalized your database. Create unlimited categories, sub-categories and items! The system's capacity is determine only by your hard drive's size!

All Aboard Data Express™: Quick Information Fields. The program provides fixed fields for quick entry to describe your categories, sub-categories and items.

All Aboard Data Express™: Un-Limited Customizable Fields! Create unlimited number of customizable fields for better description of your items. Due to the program's simplicity, in just minutes you can create all desired customizable fields!

All Aboard Data Express™: Un-Limited Imaging Library. You may import an un-limited number of images of your items. For better viewing capabilities, we incorporated state of the art imaging technology to provide you with endless viewing possibilities.

All Aboard Data Express™: Un-Limited databases. Now you have the freedom to create separate databases for different subjects. Although, you can incorporate them within the categories, this program enables the option to create an entire separate database for different items. For example: You may create an entirely separate database for Marklin and ROCO trains. Another example: You can create a database named Trains, another database named Scenery and another database named DCC Equipment. This feature creates an entire world of possibilities!

All Aboard Data Express™: Advanced backup system. Keep your database safe in the event of system crash or malfunction.

All Aboard Data Express™: Highest Security Level! Your database is encrypted for maximum confidentiality!

All Aboard Data Express™: Easy Reports. Our Quick and uncomplicated reporting system provides you with a clear and immediate representation of your database. One reporting system does it all! Hassle Free!

All Aboard Data Express™: Exporting to MS Excel and Text, Importing from MS Excel and Text.

All Aboard Data Express™: Advanced internet Live Update feature. Stay up-to-date with new releases, bug fix and new features! A licensed user is eligible for two years of FREE Upgrades! Simply connect to the internet and download the program's recent upgrades.

All Aboard Data Express™: Model Railroading Tool-Box. Bonus Features to provide the model railroader with useful tools like Digital and Analog Clocks, Electronic Calculator, Resistor Color Code analyzer, Hobby Shop Address Book, Sticky Notes Reminder, Model Railroading Wallpaper changer that includes 100 hi-quality images of trains around the world and more!

All Aboard Data Express™:  Track your eBay Auctions! It monitors your eBay auctions and alerts you when you have been outbid! After you have purchased the item, cut and paste the item information directly into the program's fields! Easy for use, mainly intuitive!

Requirements: MS Windows XP, Pentium Based System, 128 MB RAM, 20 MB HD, SVGA
