

DocRR™

Model Railroading Documentation & Media Management System

The screenshot shows the DocRR - Model Railroading Documentation System: Version 1.1.0 interface. The left pane displays a tree view of folders including Books, Model Railroading Catalogs, My Layout CAM Movies, Publications, Railroad Sounds, and Statistics. The right pane shows a list of files with columns for Name, File Size, Dimensions, and Type. The file 'Model Railroading Scenery' is selected and highlighted. Below the file list is a 'Document Details' section with the following information:

Especially Designed for Model Railroaders!

DocRR™

Model Railroading Documentation & Media Management System

DocRR™: With this new innovative software product, model railroaders have the capability to maintain their hobby's documentation and media collection with ease! The program stores all types of documents in a wide variety of formats. (MS Word, MS Excel, PDF, Rich Text, Text, All Media Formats and more.) All Items have the ability to be represented by your personal images of choice.

DocRR™: The program was especially designed for today's model railroaders' needs, enabling maintenance of technical documents, books, hobby related publications, catalogs and similar.

DocRR™: An entire new concept in documentation and media inventory control. Simple for use, yet smart behind the scene. The software provides an advanced approach in order to easily access each category and its items. **DocRR™** maintains your entire model railroading documentation and media collection in an easy to manage, easy to view system. It records vital information like purchase date, purchase price, manufacturer, condition and much more.

DocRR™: Universal & Fully Customizable. Users can customize and personalize their database. You can create unlimited categories, sub-categories and items. The system's capacity is determined only by your hard drive's size.

DocRR™: Every document is stored within the program's browser and can be easily accessed. The software also stores movie and media files that can be played directly from the program. In addition users can catalog their DVD and VIDEO collections including detailed information for each item along with its representative image.

DocRR™: Efficient backup system, keeps your database safe in the event of system crash or malfunction.

DocRR™: Highest Security Level. Your database is encrypted for maximum confidentiality.

DocRR™: Easy Reports. Our Quick and uncomplicated reporting system provides you with clear and immediate representation of your database. One reporting system does it all! Hassle Free!

DocRR™: The program supports web links enabling model-railroaders to have direct access to model-railroading related information that is on the World Wide Web.

DocRR™: Advanced internet Live Update feature. Stay up-to-date with new releases, bug fix and new features! A licensed user is eligible for two years of FREE Upgrades! Simply connect to the internet and download the program's recent upgrades.

DocRR™: One of the most important aspects of the program is its **simplicity!**
DocRR™ is user friendly, mainly intuitive, yet advanced behind the scene.
